Commonwealth of Massachusetts
Worcester S.S. Southborough, October 17, 1930

To either of the Constables of the Town of Southborough
Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the inhabitants of the First Precinct of said Town of Southborough qualified to vote in elections to meet in the Town House in said Town of Southborough on

Tuesday, November 4, 1930

and to notify and warn the inhabitants of the Second Precinct of said Town of Southborough qualified to vote in elections to meet in the South Union School on

Tuesday, November 4, 1930

and to bring in their votes to the Election Officers of the respective Precincts for:
Governor; Lieutenant-Governor; Secretary; Treasurer; Auditor; Attorney-General; Senator in Congress; Congressman; Councillor; Senator; Two Representatives in General Court; District Attorney; Register of Probate and Insolvency; County Commissioners; and County Treasurer. And to vote by ballot, Yes or No, on the following questions:

Question No. 1.

Proposed Amendment to the Constitution

Shall an amendment to the Constitution relative to the apportionment of senatorial, representative and councillor districts, further described as follows:

The proposed amendment of the Constitution provides for the annulment of Article XXI of the Articles of Amendment of the Constitution and the substitution therefor of a new Article XXI and for the annulment of Article XXII of

the Articles of Amendment of the Constitution and the substitution therefor of a new Article XXII. The proposed Amendment embodies in substance the following changes in and additions to said Articles XXI and XXII.

1. In proposed Article XXI, towns of twelve thousand inhabitants or more may be divided in forming representatives districts. No precincts, however, in such towns may be divided. In taking the census the special enumeration of legal voters shall specify the number residing in each precinct of such towns. Under existing Amendment XXI no town may be divided and no specification of the number of voters in a precinct is required.

2. The division of a county into representative districts and the apportionment of representatives to districts therein is to be made by "The County Commissioners or other body acting as such or, in lieu thereof, such board of special Commissioners in each county as may for that purpose be provided by law-....." Under Article XXI as it now stands the division and apportionment is made by "The Mayor and Aldermen of the city of Boston, or of the County Commissioners in each county other than Suffolk, such Board of special Commissioners in each county, or of the towns therein as may for that purpose be provided by law....." The time for assembling of such commissioners, board or body for the purpose of making such division and apportionment is also changed, from the first Tuesday of August next after each assignment by the Legislature of the number of representatives to each County, to a time within thirty days after certification by the Secretary of the Commonwealth to such Commissioners, board or body of the number so assigned, or within such other period as the General Court may by law provide.

3. Under the proposed Articles, each special enumeration shall be the basis for determing the districts, senatorial, representative and councillor, for the ten year period beginning in the fourth January following said special enumeration and the present division of districts is to remain in effect until January, 1939. Under the existing amendments the ten year period is the period between the taking of each census. (Thus, the next redivision based upon the next census in 1935 would, under the proposed Articles, affect those elected in 1938 to hold office beginning in January, 1939, instead of affecting those elected in 1936 to hold office beginning in January, 1937. Under existing amendments representation of newly created districts begins in January of the second year after each ten year census, whereas under the porposed article it would begin in January of the fourth year thereafter.) The number of representatives (240) senators (40) and councillors (8) is not changed.

4. The legislature may limit t e time within which a division of representative, councillor or senatorial districts may be questioned by judicial proceedings. The existing amendments contain no provision that itself limits or authorizes the Legislature to limit such time.

Which received in a joint session of the Two Houses held May 17, 1928, 182 votes in the affirmatives and 48 in the negative, and at a joint session of the Two Houses held May 26, 1930, received 155 votes in the affirmative and 88 in the negative, be approved?

Question No. 2.

Law Proposed by initiative Petition.

Shall the proposed law which amends the General Laws by striking out Chapter 138 Section 2A, which Section provides that, "No person shall manufacture, transport by air craft, water craft or vehicle import or export spirituous or intoxicating liquor as defined by section three or certain non-intoxicating beverages as defined by section one, unless in each instance he shall have obtained the permit or other authority required therefor by the laws of the United States and the regulations made thereunder." Which law was disapproved in the House of Representatives by a vote of 110 in the affirmative and 123 in the negative and in the Senate by a vote of 11 in the affirmative and 26 in the negative, be approved?

Question No. 3.

Law proposed by Initiative Petition.

Shall the proposed law which amends General Laws, Chapter 131, by inserting therein a new section number 59A, which in substance makes it a misdemeanor punishable by a fine of fifty dollars for any person to use, set or maintain any trap or other device for the capture of fur bearing animals which is likely to cause continued suffering to an animal caught therein and which is not designed to kill the animal at once or take it alive unhurt, except traps or other devices for protection against vermin, set or maintained within fifty yards of any building or cultivated plot of land to the use of which the presence of vermin may be detrimental, which law was disapproved in the Senate by a vote of 12 in the affirmative and 24 in the negative and in the House of Representatives by a vote of 48 in the affirmative and 167 in the negative, be approved?

The Polls will be opened at quarter past six o'clock in the morning and will be closed at four o'clock of the same day.

And you are directed to serve this Warrant by posting attested copies thereof seven days at least before the time of said meetings as directed by vote of the Town.

Question No. 2

Law Proposed by Initiative Petition.

Shall the proposed law which provides for an additional method of nominating candidates for nomination, at the state primaries in September, by members of political parties, for those offices to be filled by all the voters of the Commonwealth at a state election.

It provides that the state conventions of the political parties, in each state election year, shall be held before and not after the state primaries, as now, namely, not later than June 15. In order to elect delegates to such party conventions, party primaries are established to be held on the last Tuesday in April. Among other things, these state conventions may endorse candidates for offices to be filled by all the voters and to be voted upon at the state primaries. Such an endorsement places a candidate in nomination, at such state primaries, without the necessity of filing nomination papers. The name of the endorsed candidate is to be placed first on the ballot and against his name is to be placed the words "Endorsed by (the name of political party) convention" in addition to the eight

word statement now authorized by law. Candidates endorsed by a party convention may accept said endorsement within ten days and having so accepted may not withdraw.

It also provides for the election of district members of state committees and members of ward and town committees at the proposed party conventions, instead of at the state primaries in September, as now.

It also provides for the election of delegates to national conventions (to nominate candidates for President) at the proposed party primaries instead of at the primaries now specially held for that purpose, and which existing law requires to be held on the last Tuesday in April (the same day proposed for the proposed party primaries.)

It also provides for certain other new provisions of law and certain changes in existing laws, relating to holding state conventions and party primaries, the number and election of delegates to state conventions, the number of members at large of a state committee, and other matters, which in more detail chiefly are as follows:

State conventions are to be composed solely of delegates, elected at the party primaries, and the number is to be one from each ward and town and one additional for every fifteen hundred votes or major fraction thereof above the first fifteen hundred votes cast at a preceding state election in such ward or town for the political party candidate for Governor, instead of a number now fixed by the state committee of each party (not less than one from each ward or town) and certain members designated by existing law.

The time, for notice to the State Secretary by aldermen or Selectmen of their determination to hold primaries by wards, precincts or groups of precincts, to be March 1, instead of August 1, as now.

The names of candidates for election for delegates to a state convention and for district members of a state committee to be arranged individually by alphabet instead of in groups arranged by lot, as now.

Vacancies in the office of delegate to a state or national convention not to be filled except in case of a tie vote, and then by delegates from the same district, within ten days, and if no other delegate or if not so filled, then by a state committee, rather than solely by the remaining members of the delegation; and statement of filling of such vacancy to be filed with the state secretary.

Seating of delegates at state conventions to be in groups by senatorial districts and order of business at said conventions defined.

Voting on candidates by a convention, to be by roll call if more than one candidate for the office, or by groups of delegates unless any member of such group objects.

The number of members at large of a state committee of a political party to be fixed by the state convention of a party instead of by the state committee, as now.

The existing provisions as to preparation and filing of nomination papers, objections to nominations, preparation, number, size, arrangement and form of ballots, hours during which polls shall be open, opening of ballot boxes, canvass and return of votes, return and certification of votes, now applicable to state primaries to be applicable to state primaries to be applicable to the proposed party

primaries.

The power of a state committee to fix the number of district delegates of a national convention to be continued, but the date, of giving notice to the State secretary of such fixation to be March 1 instead of on or before the third Wednesday in March, as now.

The power of city and town committees to fix the number of members of ward and town committees to be continued, but the date, of giving notice to the State Secretary, of such fixation to be March 1, instead of August 1, as now.

Which was approved in the Senate by a vote of 21 in the affirmative and 17 in the negative and was disapproved in the House of Representative by a vote of 62 in the affirmative and 138 in the negative, be approved?

Proposed Amendment to the Constitution of the United States. Is it desirable that the proposed amendment to the Constitution of the United States.--
